At present, the institution offers 13 UG, 6 PG and 5 Ph.D. programs across Arts, Commerce and Science faculties. The institution has approximate 3000 students with 43 full-time teachers.

Vision

To be a premier higher education institution that significantly contributes to national development by providing quality education, fostering global competencies, and inculcating a strong value system among students. We strive for excellence by integrating technology to enhance teaching and learning, promoting innovation, and thereby transforming students into responsible, skilled human resources prepared to meet global challenges.

Mission

To empower students to become responsible global citizens by fostering intellectual growth, self-confidence, and an unwavering value system. We deliver quality, technology-driven education that equips them with the skills and competencies required to excel in a globally competitive environment, thereby fulfilling our commitment to national development and social responsibility.

Core Values

- Empowering our community to actively participate in environmental conservation and health awareness initiatives. We promote National integration by celebrating cultural events and encouraging service to the community.
- Equipping students with enhanced global communication skills through non-native language training programs. We ensure global competence through research collaborations and dedicated student and faculty exchange programs.
- Instilling a strong value system by encouraging student participation in community service, volunteer work, and ethical conduct initiatives.

- Utilizing technology extensively in teaching, learning, and research to continuously enhance the student learning experience.
- Striving for excellence in all aspects of education by continuously improving our services, encouraging innovation and research, and providing opportunities for students to develop critical thinking skills and contribute to the advancement of knowledge.
