Policy Document on the Green Campus

Green Campus:

The Green Campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of humanity. The campus should be aesthetic with greenery and trees, plants and saplings to boost both the physical and the emotional health of the students and faculty members, office staff and all the users of the campus.

Policy measures towards maintaining the campus green:

- Maintenance of already existing greenery.
- Consciously striving towards less use of Paper.
- Plastic to be banned within the campus.
- Digital library with facilities for e-learning.
- Cleanliness drive through the NSS/NCC wing.
- Usage of LEDs in the campus.
- Reuse of rain water through Rain Water Harvesting in the campus

Green Campus:- Aims and Objectives:

- The faculty, staff and students should contribute collectively to develop an eco-friendly sustainable campus and disseminate the concept of eco-friendly culture to the nearby community and wherever possible.
- Awareness creations about environmental issues among students and employees including climate change.
- The College focus on more and more tree plantation.
- College is striving for maintaining vertical garden.
- Emphasis on plantation of medicinal plants.

Waste Management:

- To increase the green cover in and around the campus.
- To adopt methods for waste segregation
- Take appropriate actions to reduce or recycle municipal waste inside the campus.
- To manage, collect and dispose e-waste appropriately
- Provisions to restrict single use of plastic
- To encourage paperless work culture and recycling/ reuse of paper.
- Display waste management instructions/alerts at prominent/relevant locations in the campus.

Water Management:

- Rain water harvesting
- Change of leakage taps
- Display importance of water for our life at relevant location in campus
